News

Dayton Hamfest

Very well done and congratulations to team TN8K for winning DXpedition of the Year at the Dayton Hamfest, along with Adrian, KO8SCA and AI, K3VN who were inducted into the CQ DX Hall of Fame.

T31TT Kanton Island –update May 25

We received some questions about T31 activity. For the team to reach Kanton island it take about 7 to 8 days by motor yacht Sheer Delight. From Fiji to Samoa about 700Nm. Then from Samoa to Kanton another 700Nm. They will stop in Samoa for refueling the vessel and a meeting regarding another rare DXCC, very close to Samoa.

Team will be on Kanton for about 12 to 14 days. After Kanton they will fly to Europe for 2 weeks to sorted out over 200.000 QSL cards. Then activity from T22T Tuvalu, and another one before the main event by end of the year if we are lucky! So far team is about 80miles away from Samoa.

TX5S Clipperton Island –update

Our fundraising campaign is underway with 18 Clubs / Foundations and 87 individuals already showing their support for the project. At 24% of the target, we have a long way to go in order to reach the goal of 50% team member funding of the estimated project cost of \$350,000(USD). If you need Clipperton for an ATNO, or will work us, we would appreciate your help, most bills must be paid before we sail. Many of the current individual donors and organizations have supported our previous DXpeditions whether they needed the entity or not. We appreciate their confidence in our team, and invite others to sign on. We wish to thank the most recent organizations for their sponsorship. We also appreciate the individual donors who have donated through the website and/or directly.

NCDXF DQRM Project

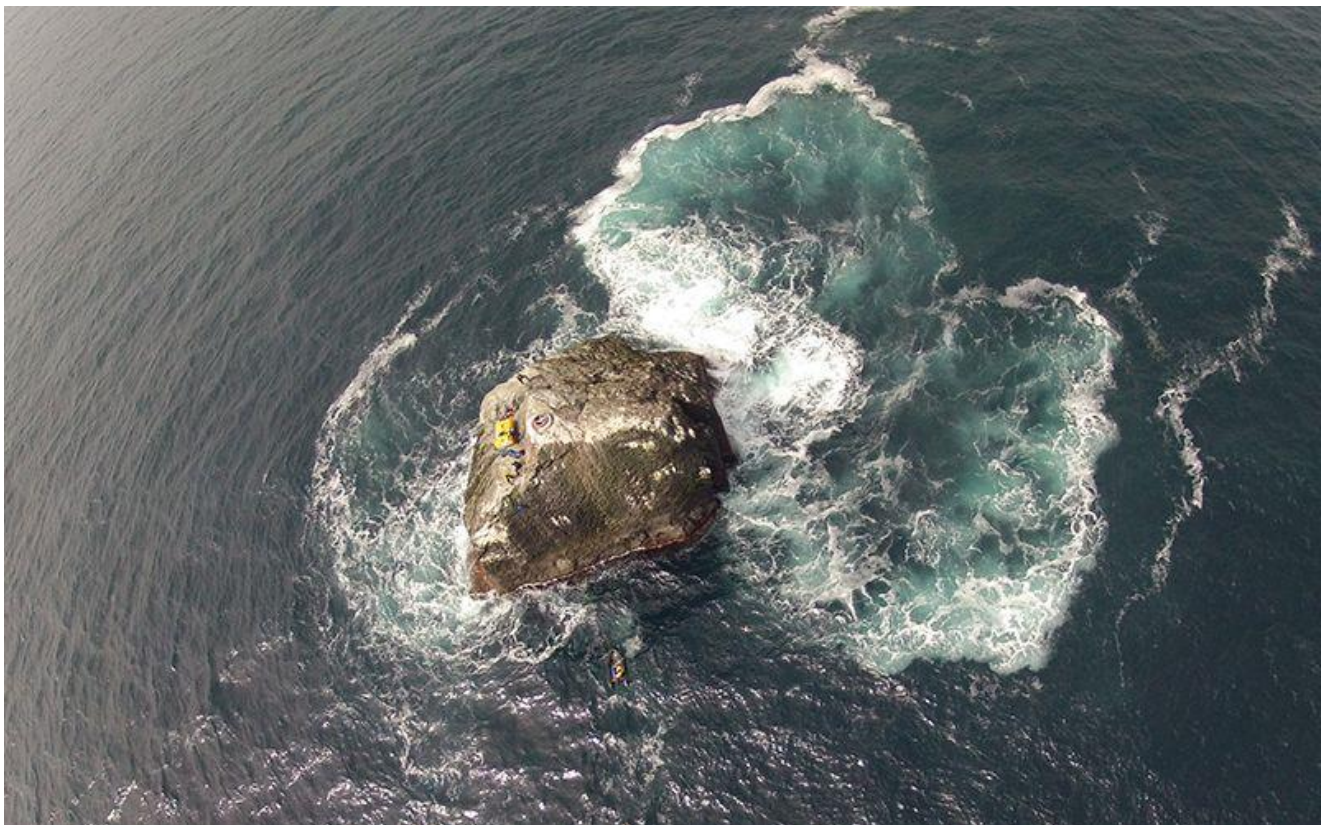

The Northern California DX Foundation (NCDXF) recognizes the negative impact deliberate QRM (DQRM) is having on our hobby. We believe this is a problem that can be mitigated by amateur radio operators applying their vast knowledge and creativity to the advanced receiving and direction finding technology currently available. In order to spur research into solving this problem the NCDXF Board of Directors at their April 2023 Board Meeting allocated \$100,000 for grants to develop DQRM solutions.

NCDXF will entertain grant proposals from individuals or groups that specifically outline their approach to identify bad actors. A group of NCDXF Directors led by Craig Thompson, K9CT and Don Greenbaum, N1DG will weigh the probability of success of their proposals as well as monitor the progress of the grantees.

Funding will be available for R&D as well as implementation of technology proposals. It is hoped that manufacturers will also assist NCDXF and grantees with equipment and other resources.

MM0UKI Isle of Rockall EU-189 –update

With the team set to depart for Rockall tomorrow evening (local time/GMT), many DXers and IOTA chasers, not to mention the MM0UKI operators, are keeping a keen eye on weather forecasts and charts. With our amateur weather eye, we're not sure any better charts are possible! High pressure dominates the region in question, especially during the sailing period. Update / pictures to follow tomorrow. Meanwhile, have a read of [this article](#) about the upcoming adventure.

Once every two years, thousands of athletes from across the globe — from Scandinavia to the Mediterranean, the North Atlantic to the Caribbean and South Atlantic — come together to compete in the NatWest International Island Games. In 1985, as part of their Year of Sport, the Isle of Man set in motion an ambitious plan to bring together athletes from small islands across the world to take part in a new sporting festival dubbed the 'Inter-Island Games'.

700 sportsmen and women from 15 islands landed on Manx soil for what the UK national press called the 'Small Islands Mini Olympics'. Competitors hailed from the Faroe Islands and Scandinavia in the northern hemisphere, the British Isles, the Mediterranean and as far afield as St Helena in the South Atlantic—a 5,000-mile trip.
